

Project Funding

**Eligibility, Application and Assessment
Information**

Who is this funding category for?

This funding is for your organisation if:

- your organisation has been constituted for more than 2 years, and
- the work you want to do advances Barnwood Trust's [strategic goals](#) for at least one year,
- but a commitment to disability or mental health outcomes is not explicitly cited in your charitable objects or published governing document.

If your organisation is less than 2 years old, or is not formally constituted, you will not be eligible for this funding. Please refer to our Small Grants Funding for more information.

If your charitable objects or governing document contain a commitment to disability or mental health outcomes, then you may wish to apply for Unrestricted Funding.

Key features of this funding

This funding must be spent on work that proactively aligns with Barnwood Trust's [vision and strategic goals](#), and that benefits disabled people and people with mental health conditions in Gloucestershire. Examples of what the Trust would fund in this programme include: an inclusion and access post to enable disabled people to engage with a community resource; running a community mental health programme over several years; running an inclusive physical activity or arts project; running a staff development programme to improve understanding of disability and mental health conditions; undertaking research on disability or mental health-related topics; running co-design projects with disabled people and people with mental health conditions.

Questions and assessment criteria

Once your due diligence assessment is complete (see section 3, Step 1 of the main information pack), your Funding Relationship Manager (FRM) will send you the application form to fill in. The following table shows the questions you will need to answer on your application to Barnwood Trust. It also outlines what assessors are looking for when they score your application, as well as how many points you can receive for each answer you write.

Applications can receive a total possible score of 19 points. Any application scoring 12 points or higher will be funded, and any application scoring 11 points and below will be declined.

If any of your responses scores 0, your application will be declined. Your FRM will support you to ensure that the likelihood of your answer scoring 0 is low ahead of your application being brought to a panel meeting.
